All donors wish to be recognized in some way. How you choose to do that can be a defining factor in your fund raising success. Timely Signs offers a wide variety of standard and custom solutions that enable you to recognize contributions with a solution that is visually engaging, integrated with the facility, and is within your budget. Whether you are recognizing multiple levels of giving, individual benefactors to a project, specific groups or naming an entire facility for a single donor, our team can provide a solution that is both fitting and unique to your organization.

Unlike other suppliers, we are a full service solution for your recognition needs. We offer on-site consultation, design development and preliminary drawings, complete fabrication services, delivery, and installation of the project at your site. All of these services take place within our own facility so that we can control quality, consistency, cost and time frames to make each project a success.

Establishing a plan for recognition before or even during your fund raising campaign has been proven to increase giving. When patrons have a clear visual picture of how they will be recognized, they feel confident about their gift. It can often encourage them to participate at a higher level of giving. Plus, if you are able to show a clear concept of a giving wall or installation, it's easier to get donors to unify their efforts to achieve your goal. We provide detailed, full color renderings that can be presented to individuals, groups or published in newsletters or outreach documents to ensure a larger level of participation in your campaign. If you have a campaign or project underway or planned for the future, we'd like to be a part of your success.

A creative and unique recognition program is a lasting tribute to your donors.
